HAPPY 50TH BIRTHDAY HENRIK THE HAULER

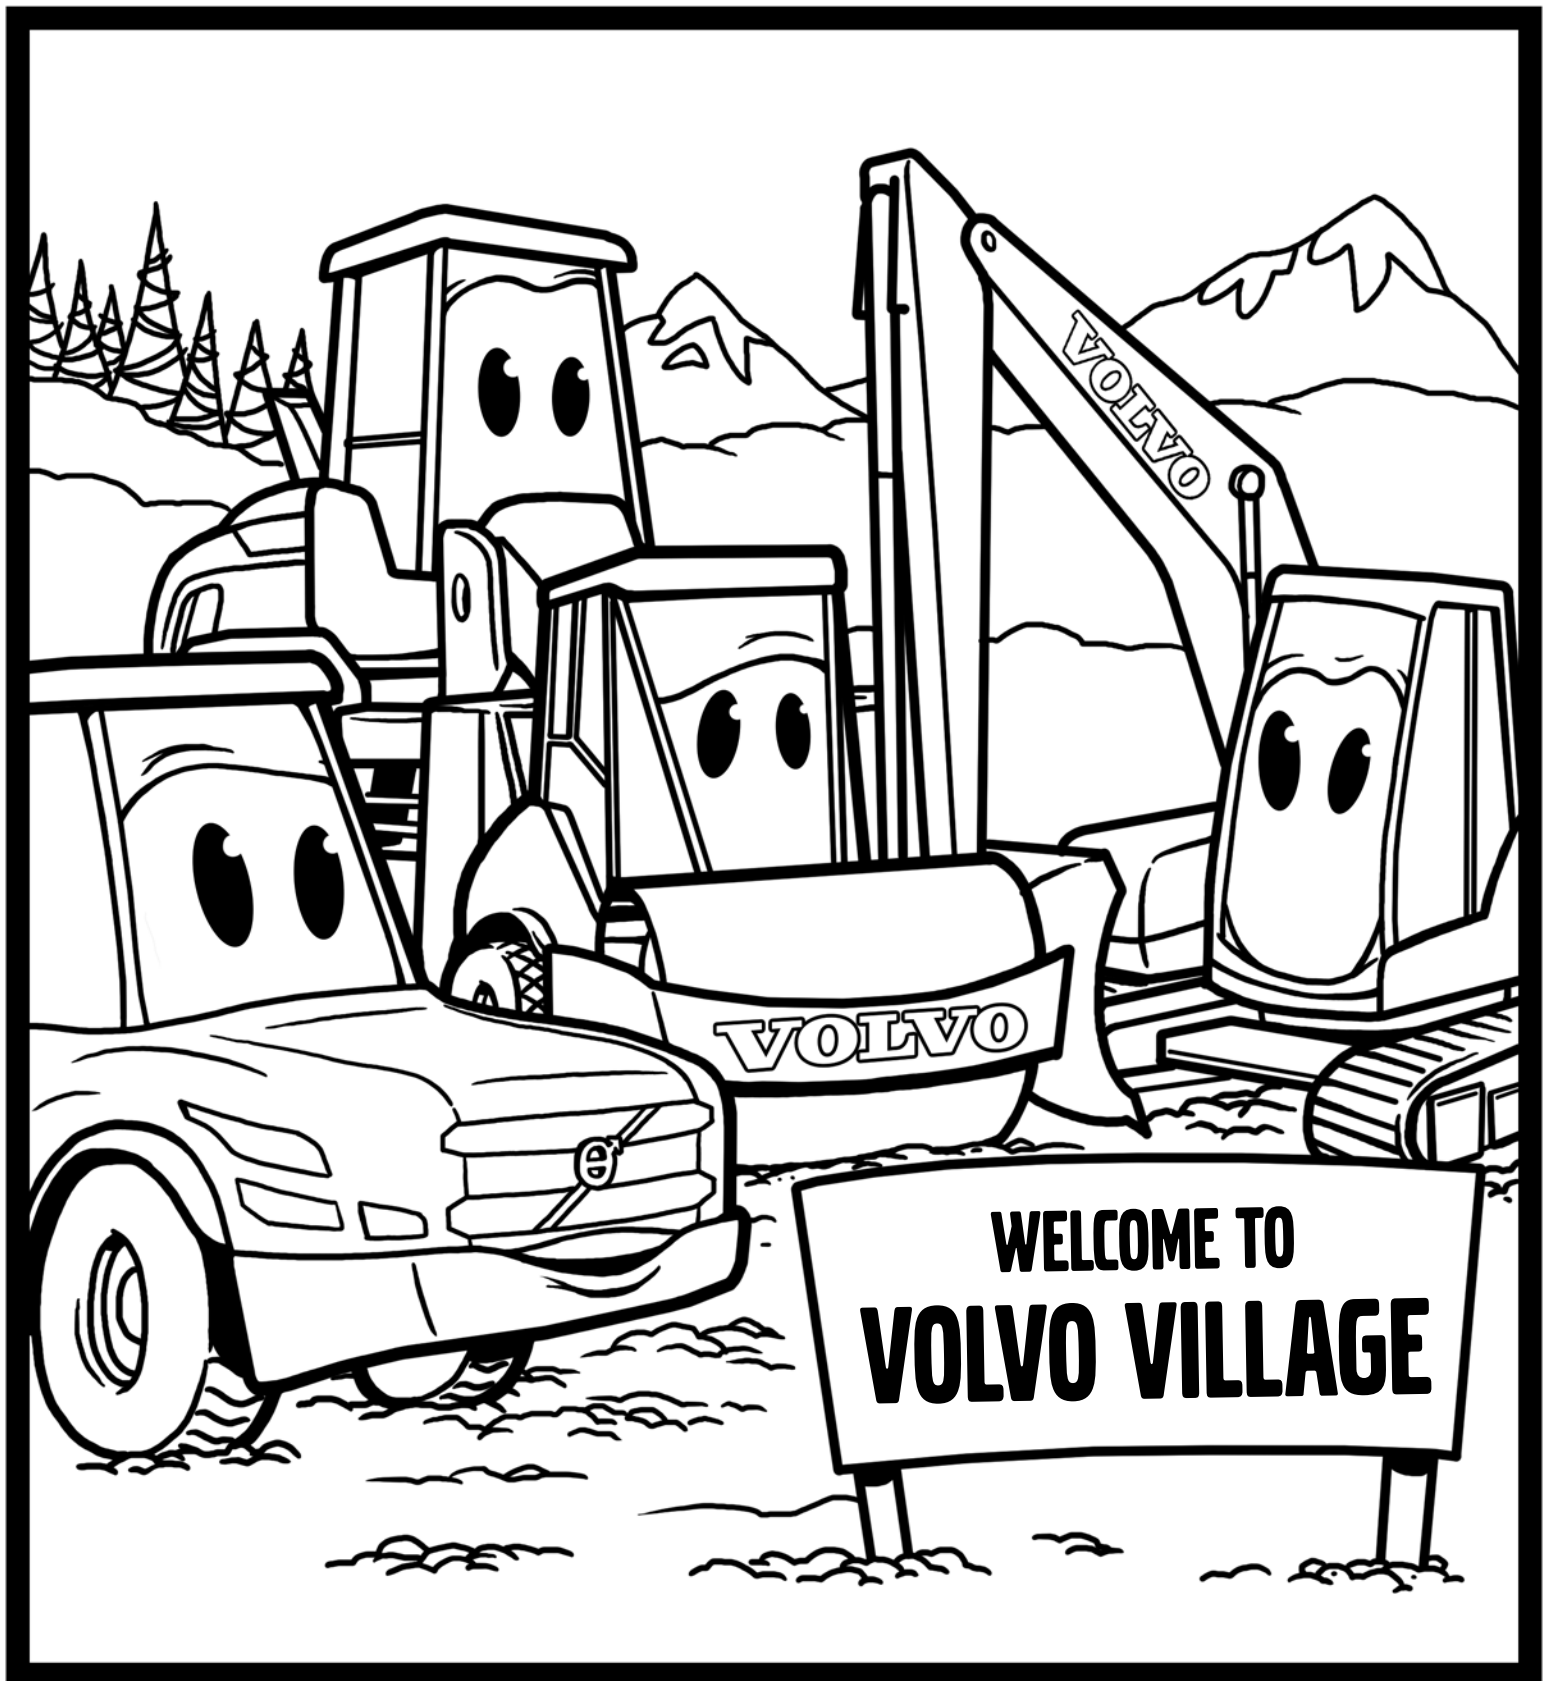

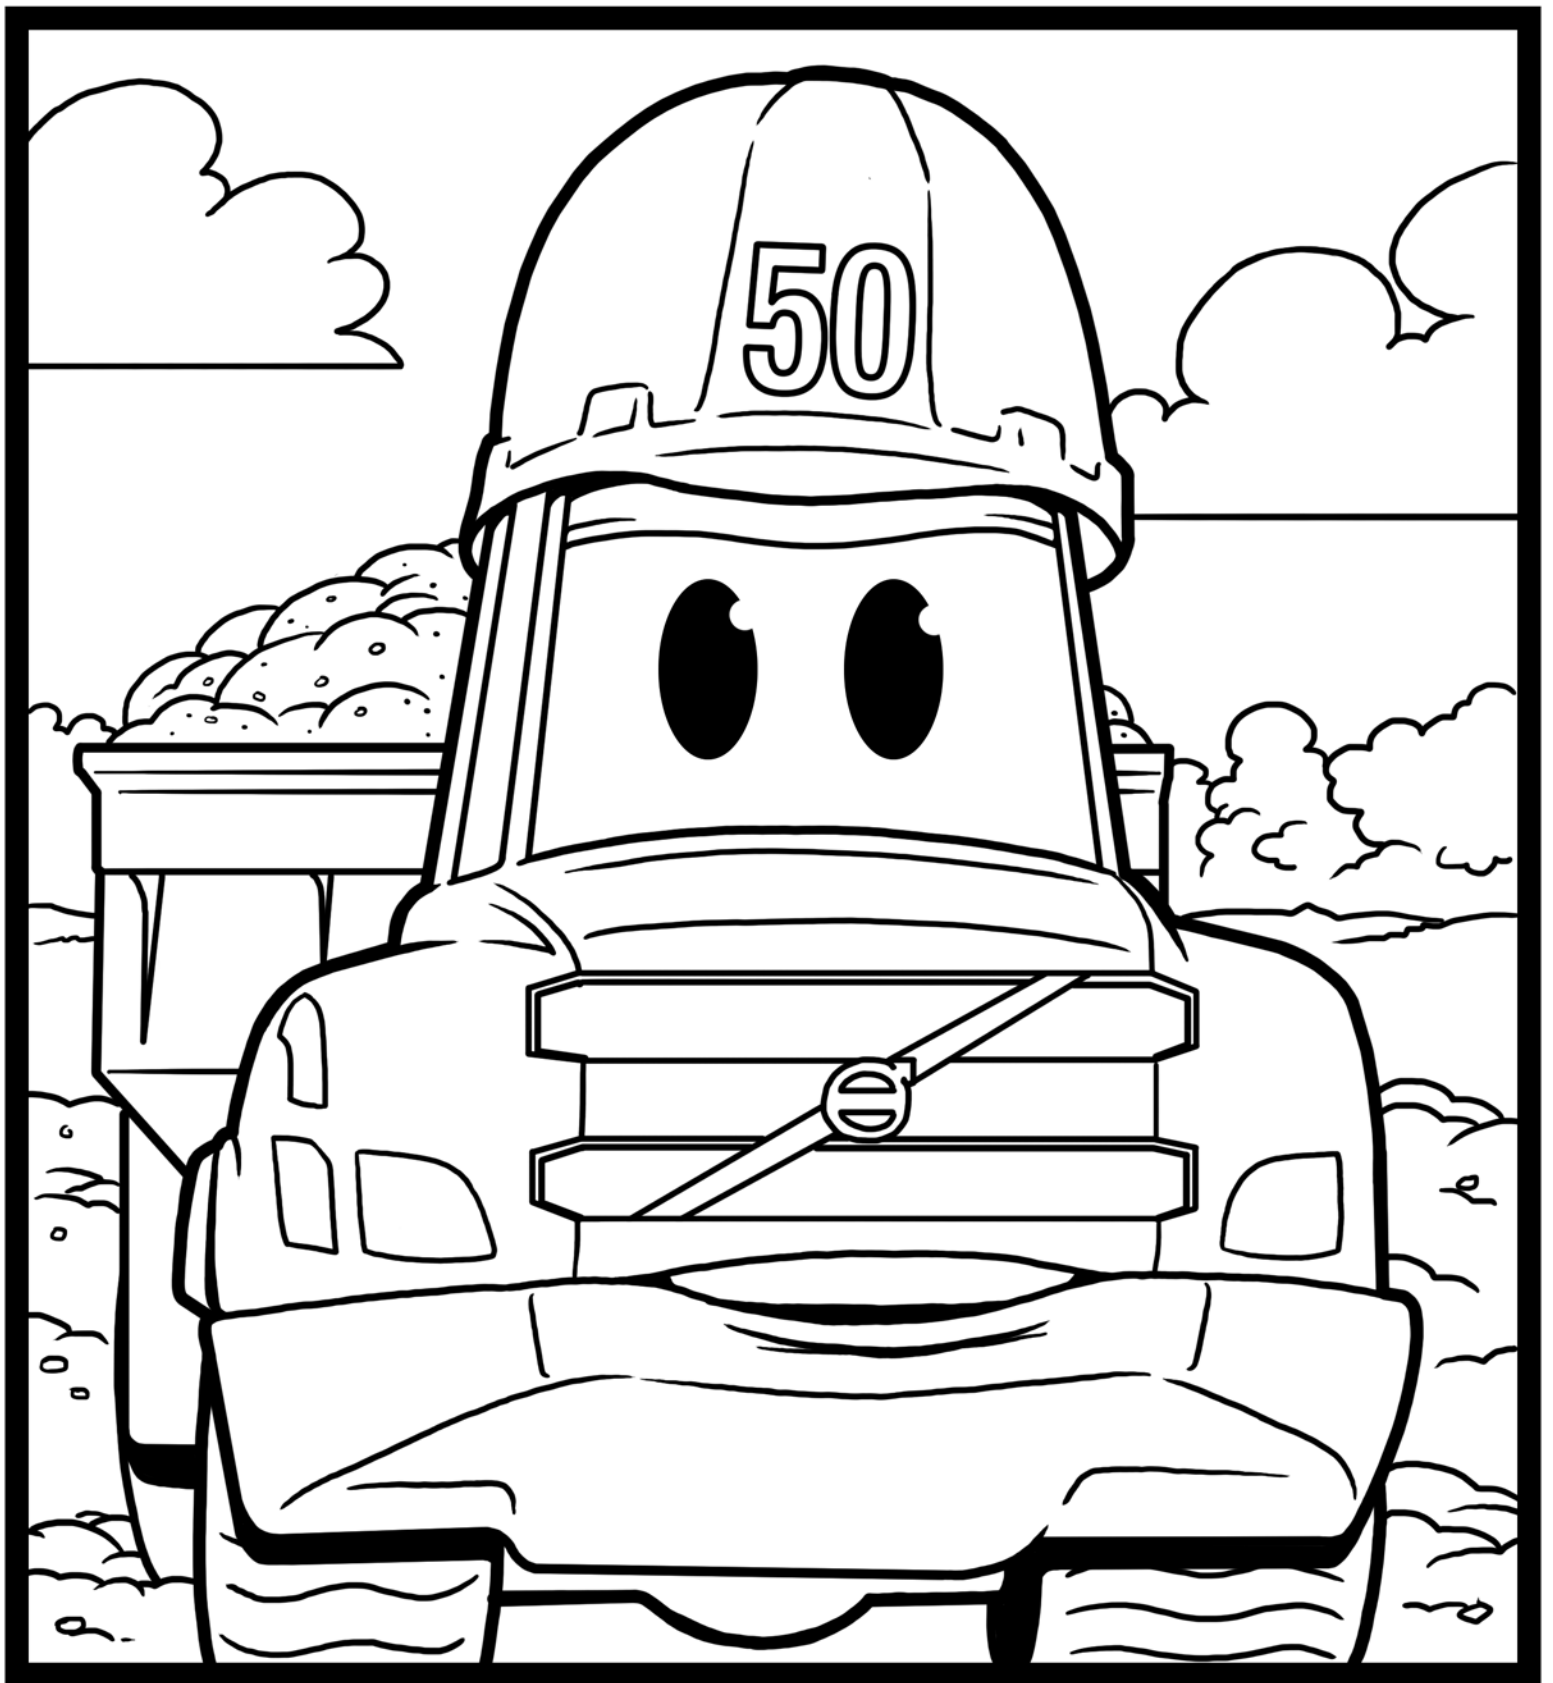

Hi! My name is Henrik the Hauler. I was born in Sweden, where I lived with my Grandpa, Gravel Charlie.

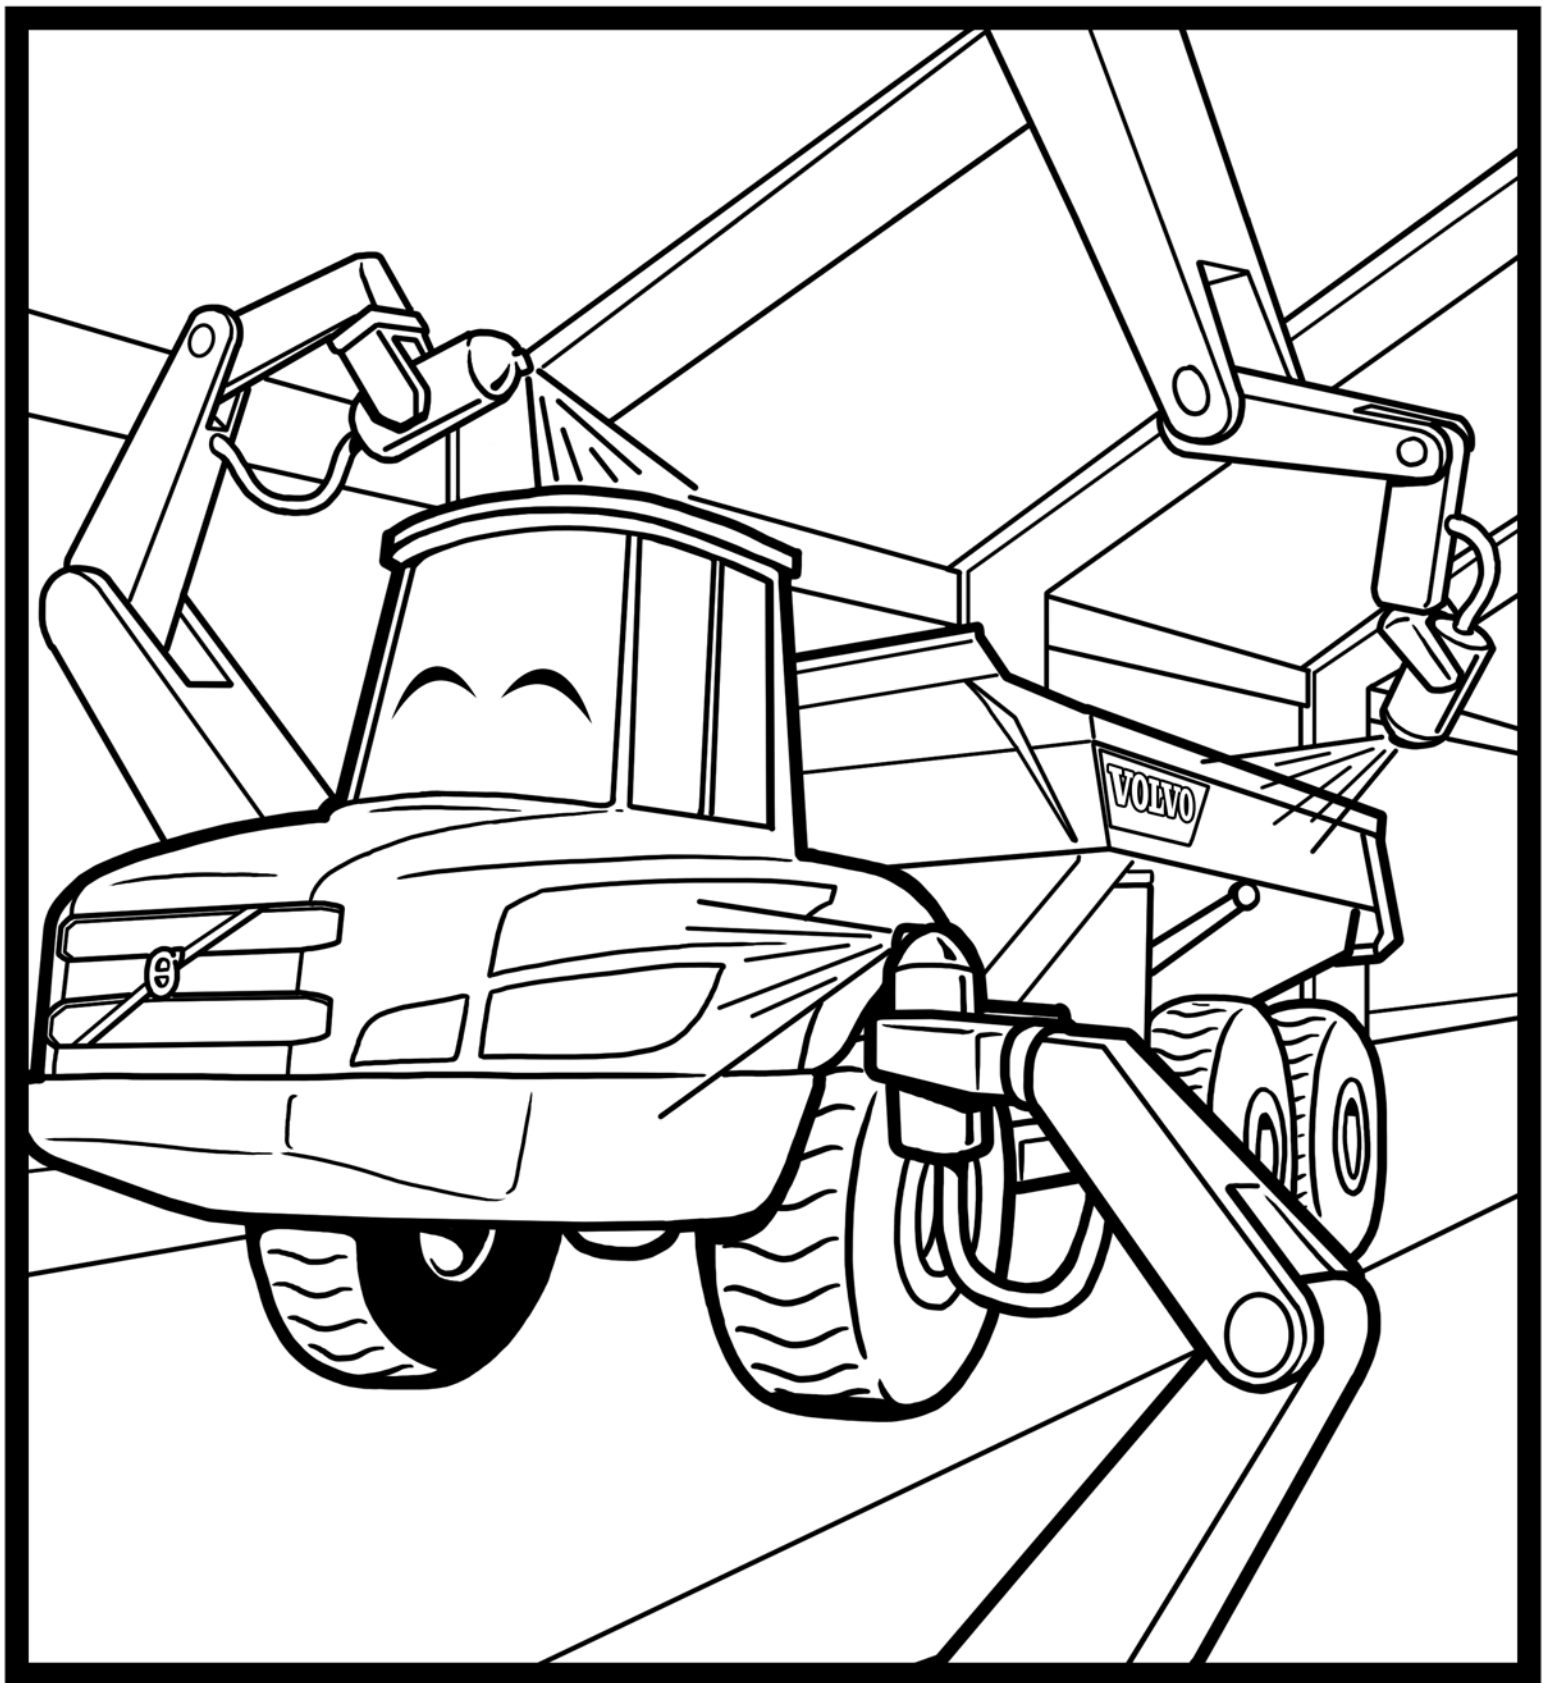

A few years ago, I moved to America, to a place called Volvo Village.

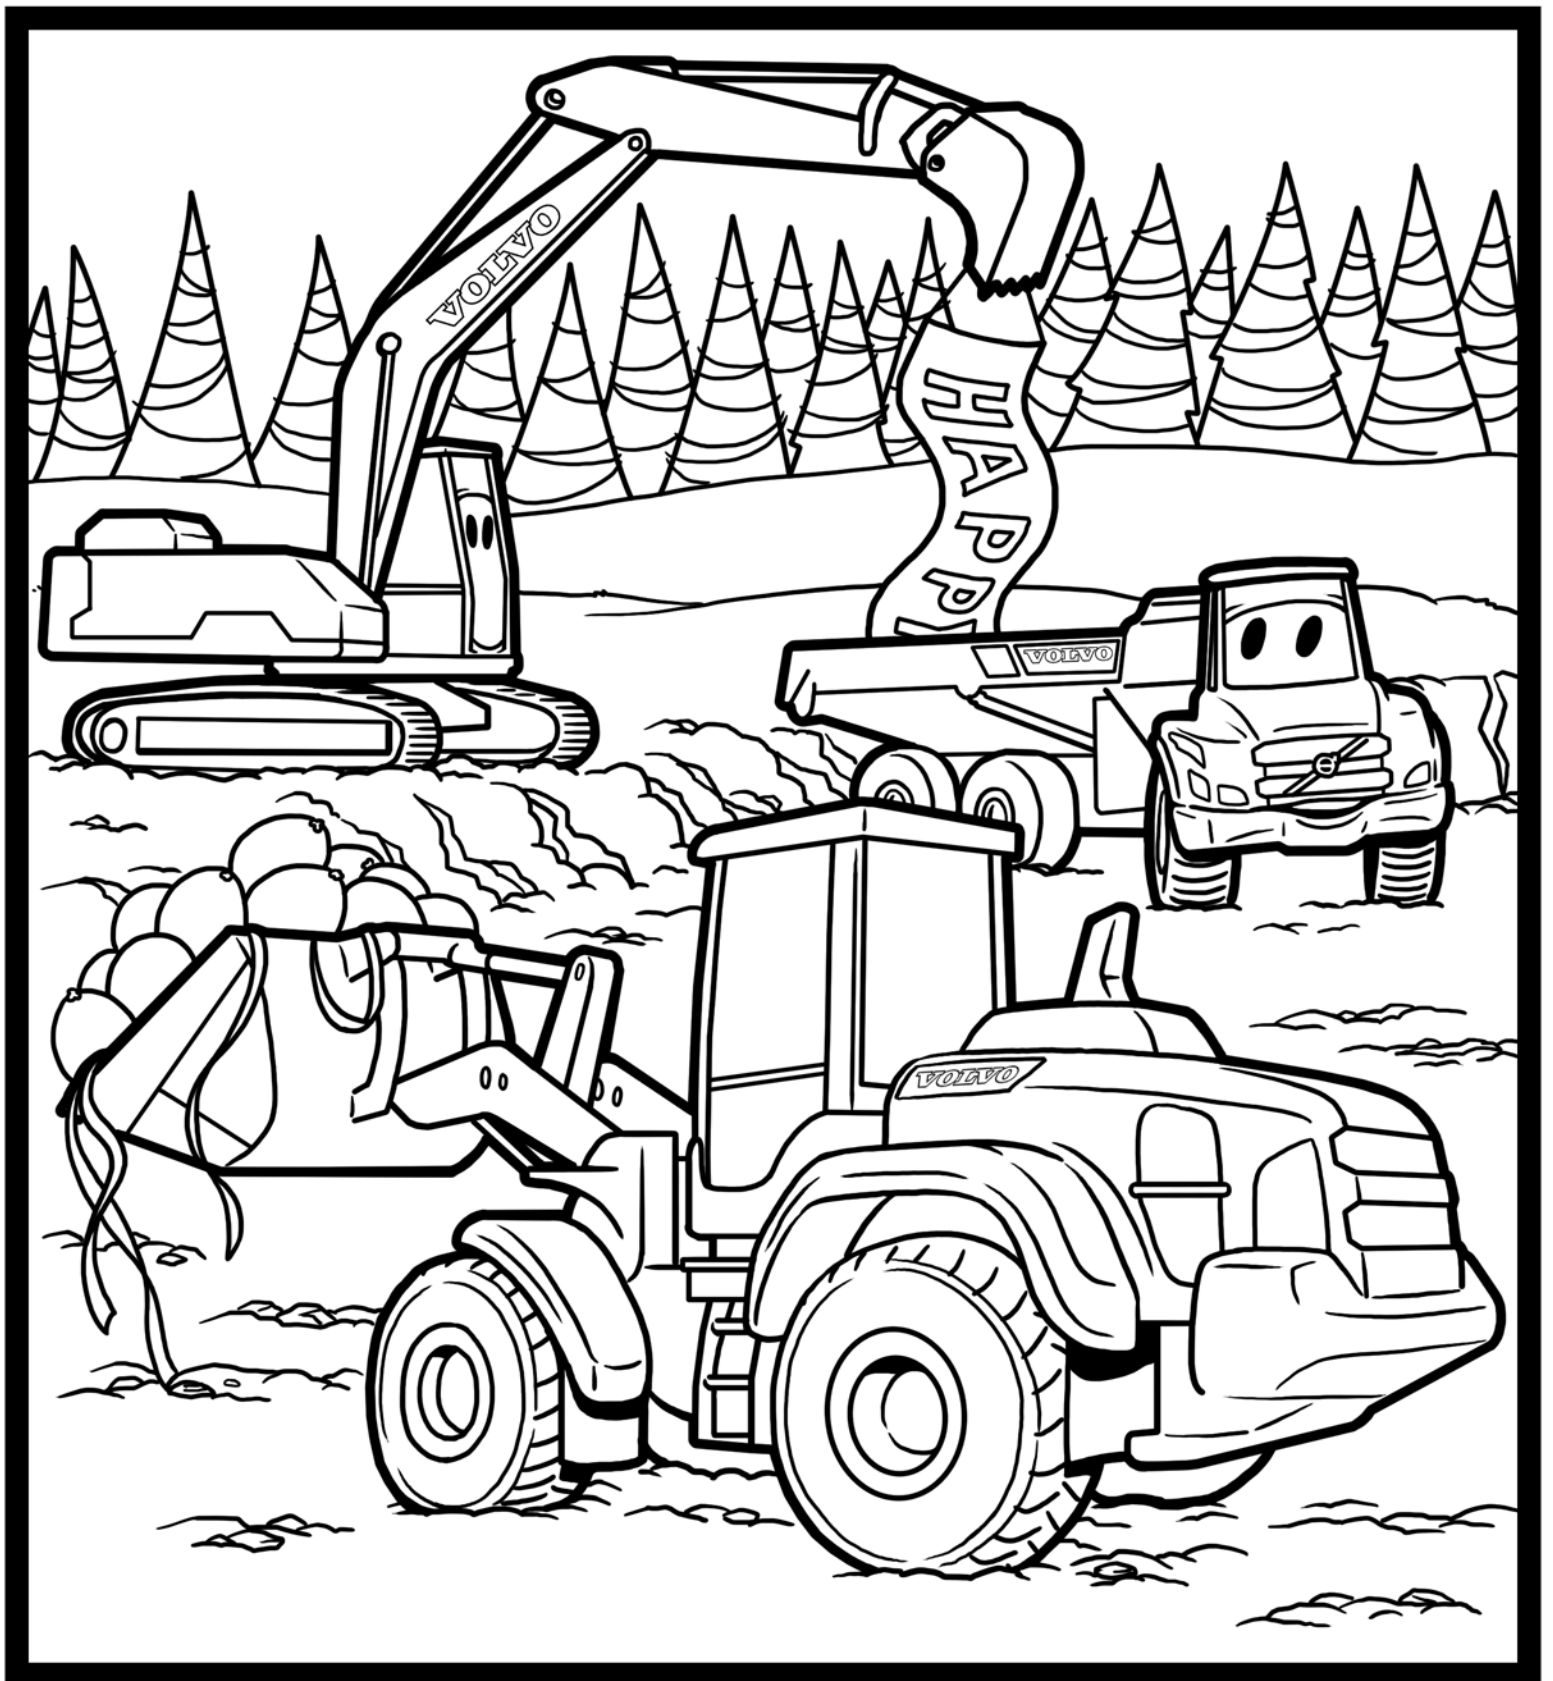

I live here with my friends, Eddie the Excavator, Carter the Compactor, and Lincoln the Loader.

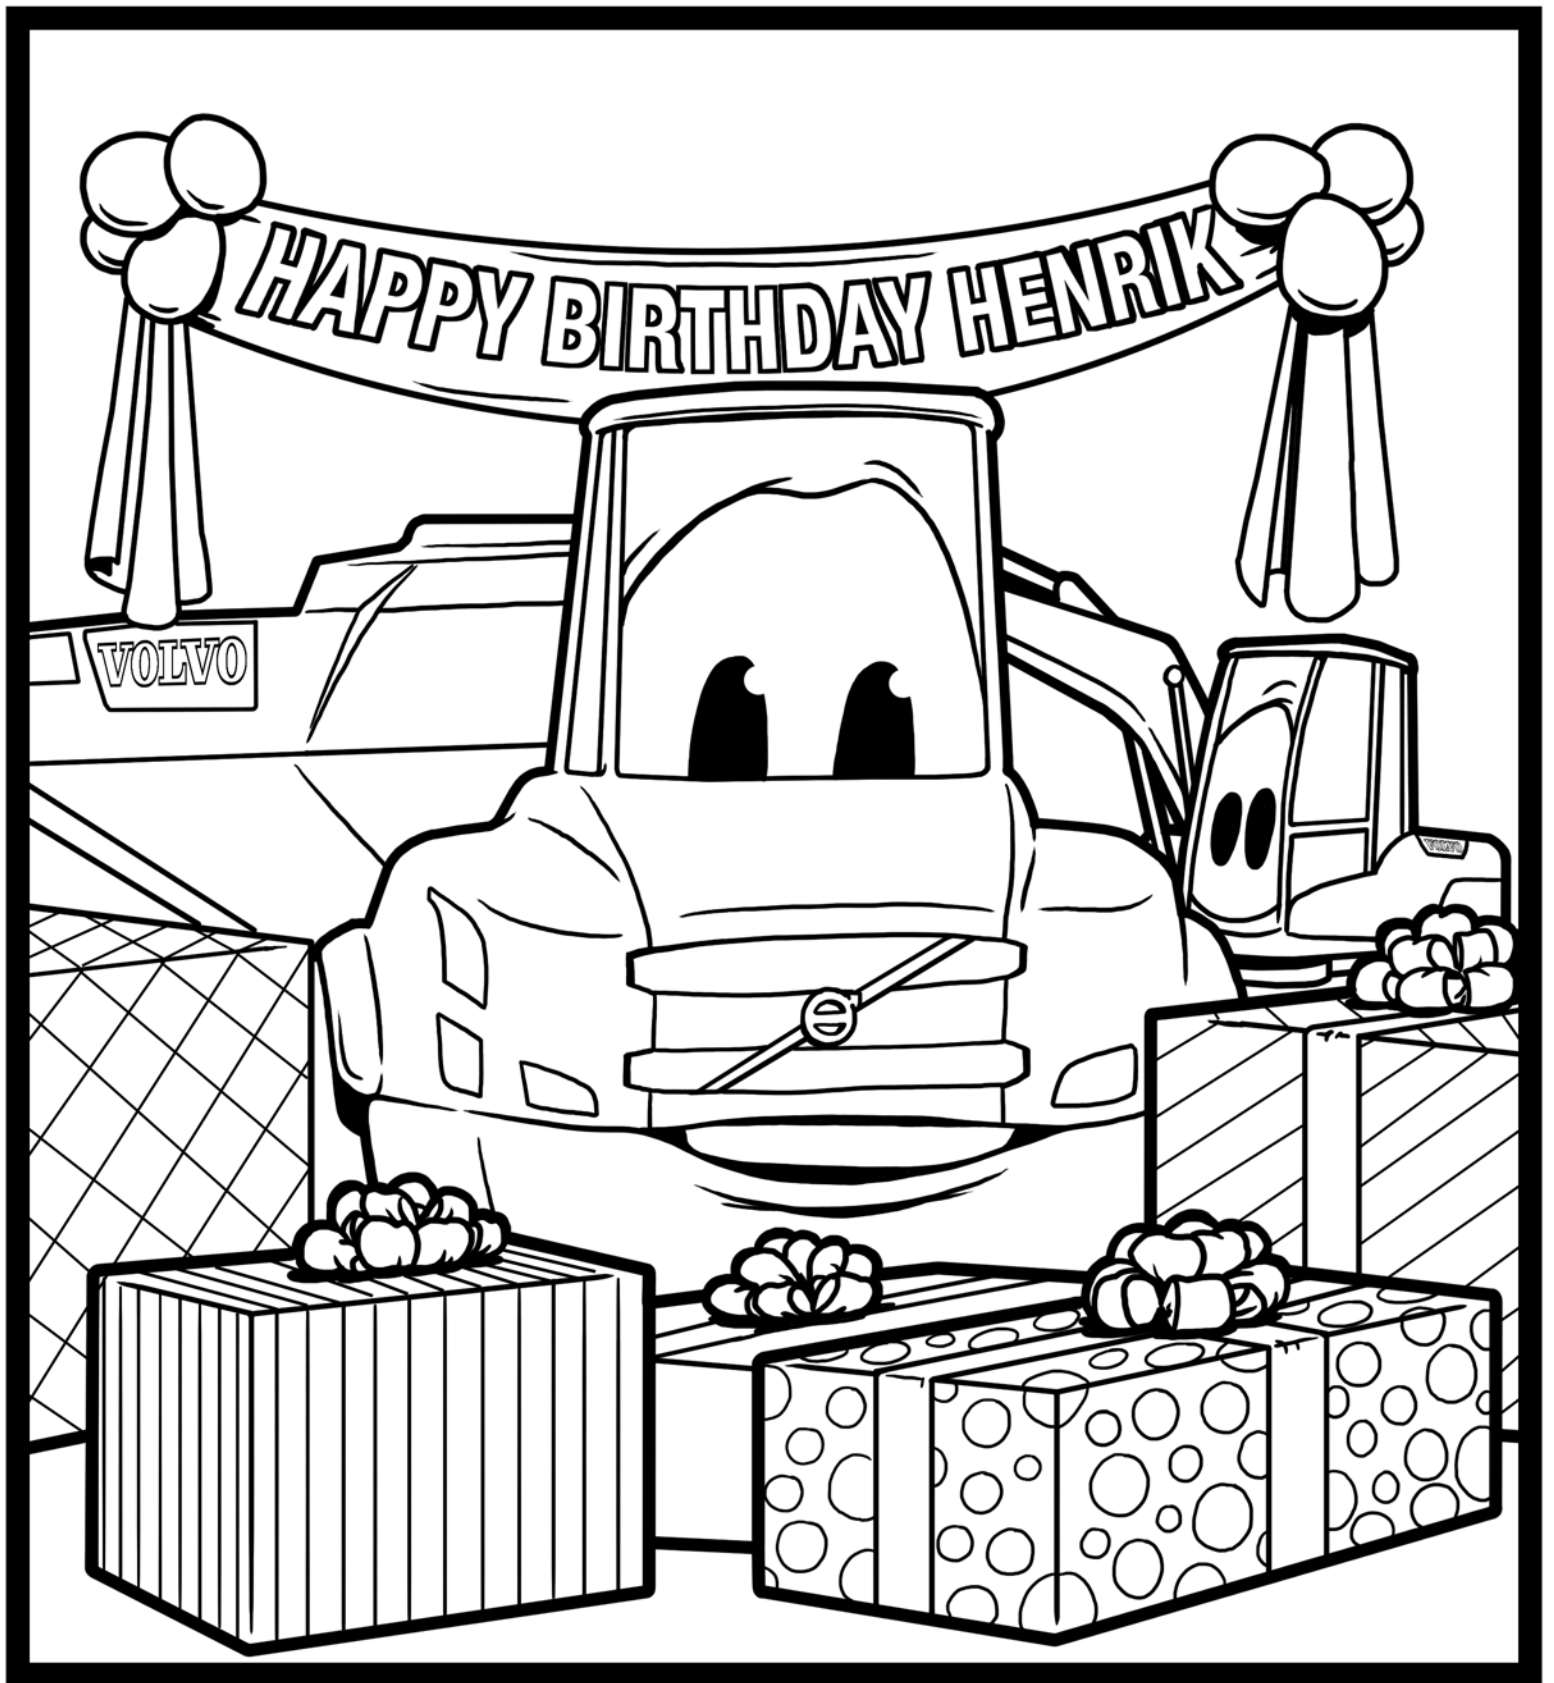

Today is a special day in Volvo Village. I'm turning 50 years old. That means it's my golden birthday! We have a lot of fun things planned!

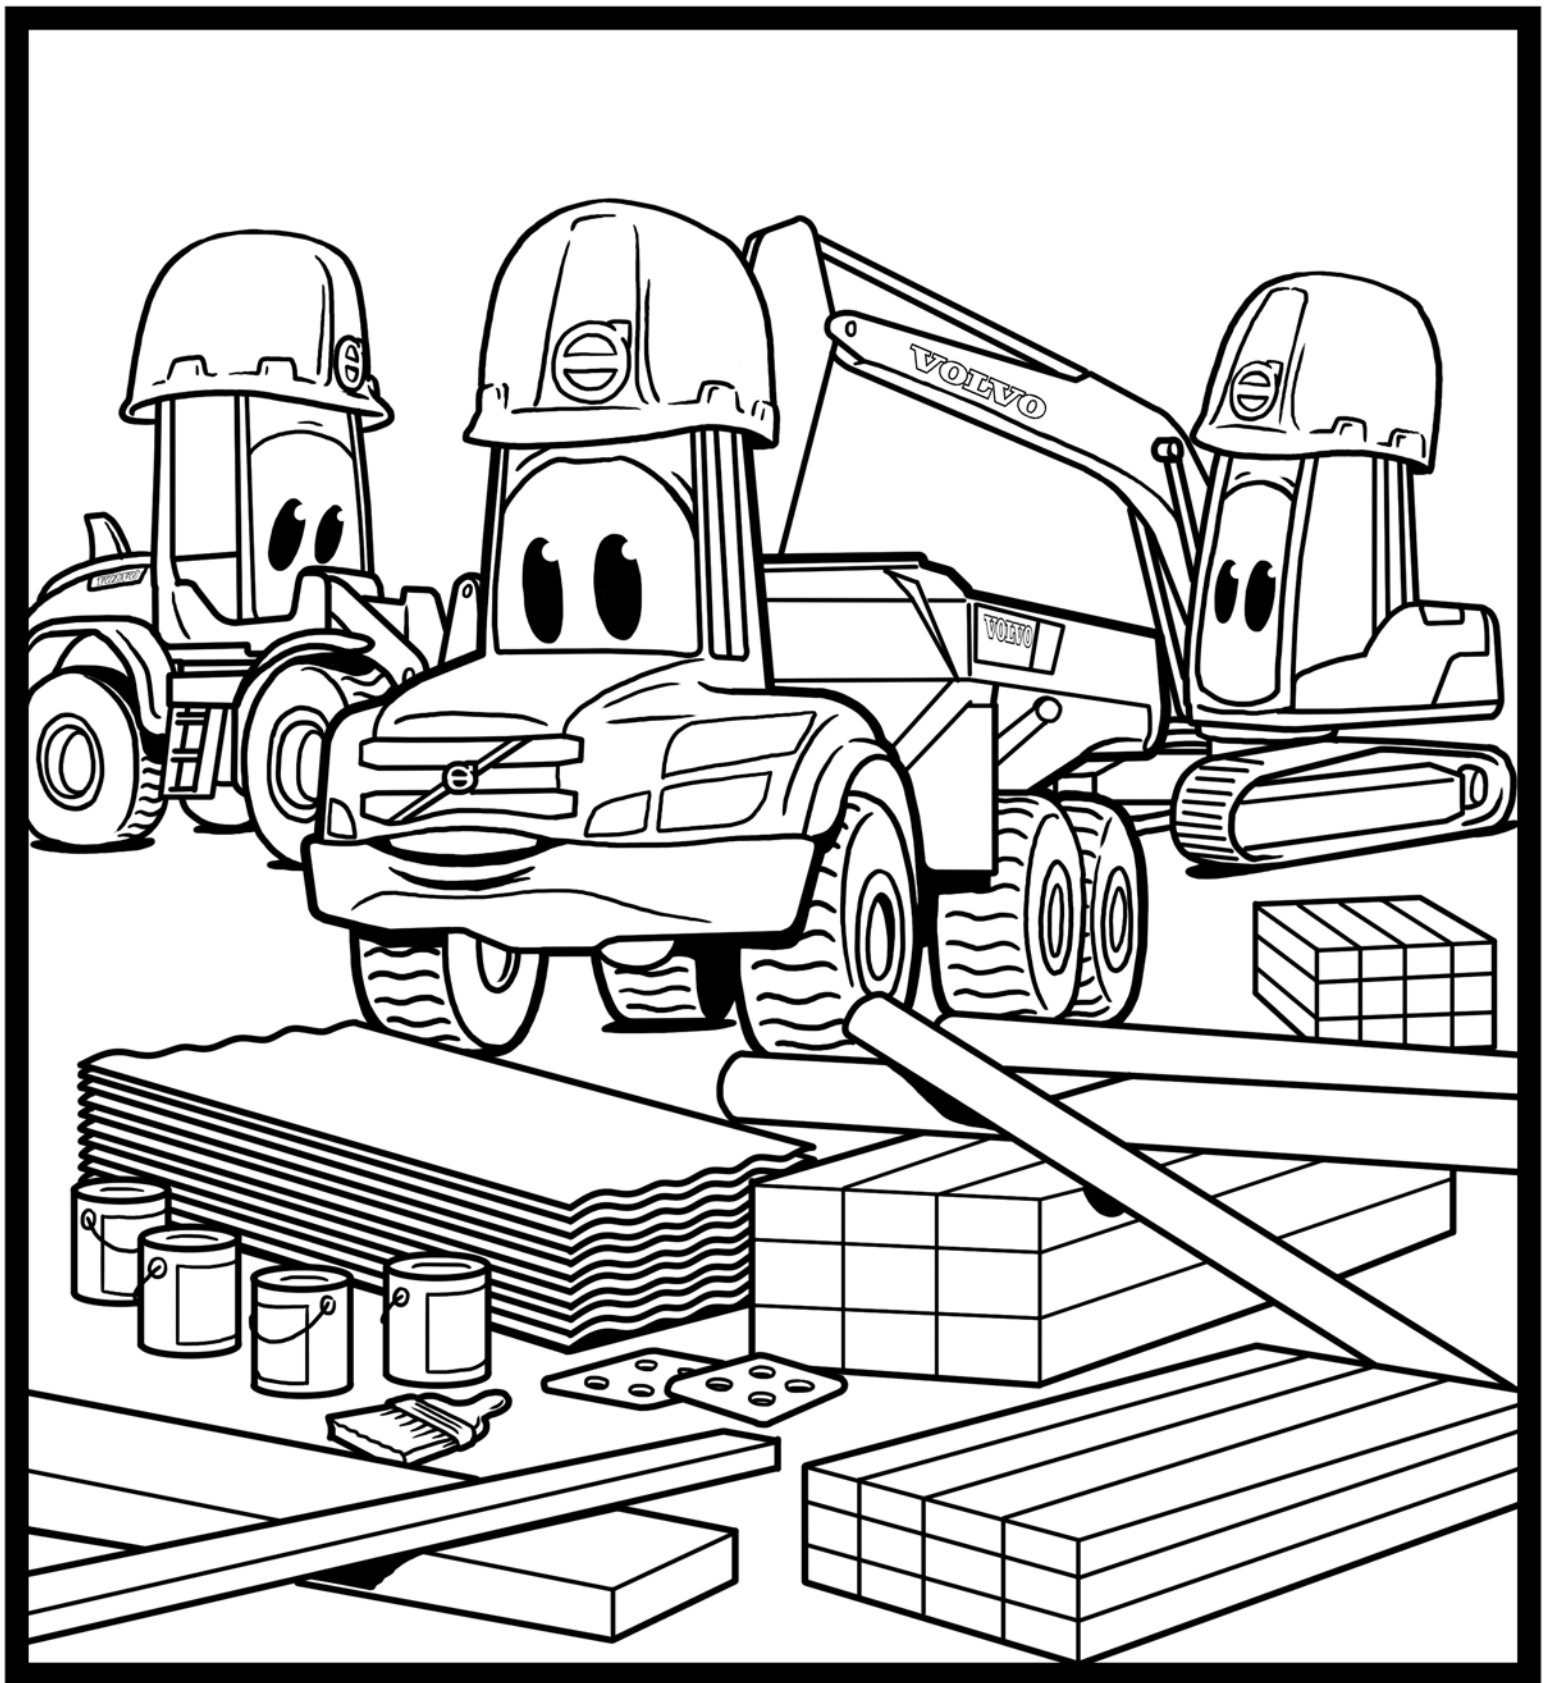

To celebrate my golden birthday, I get a brand new coat of gold paint! I can't wait until my friends see this.

Every birthday party needs decorations. It's a good thing we have a team to help!

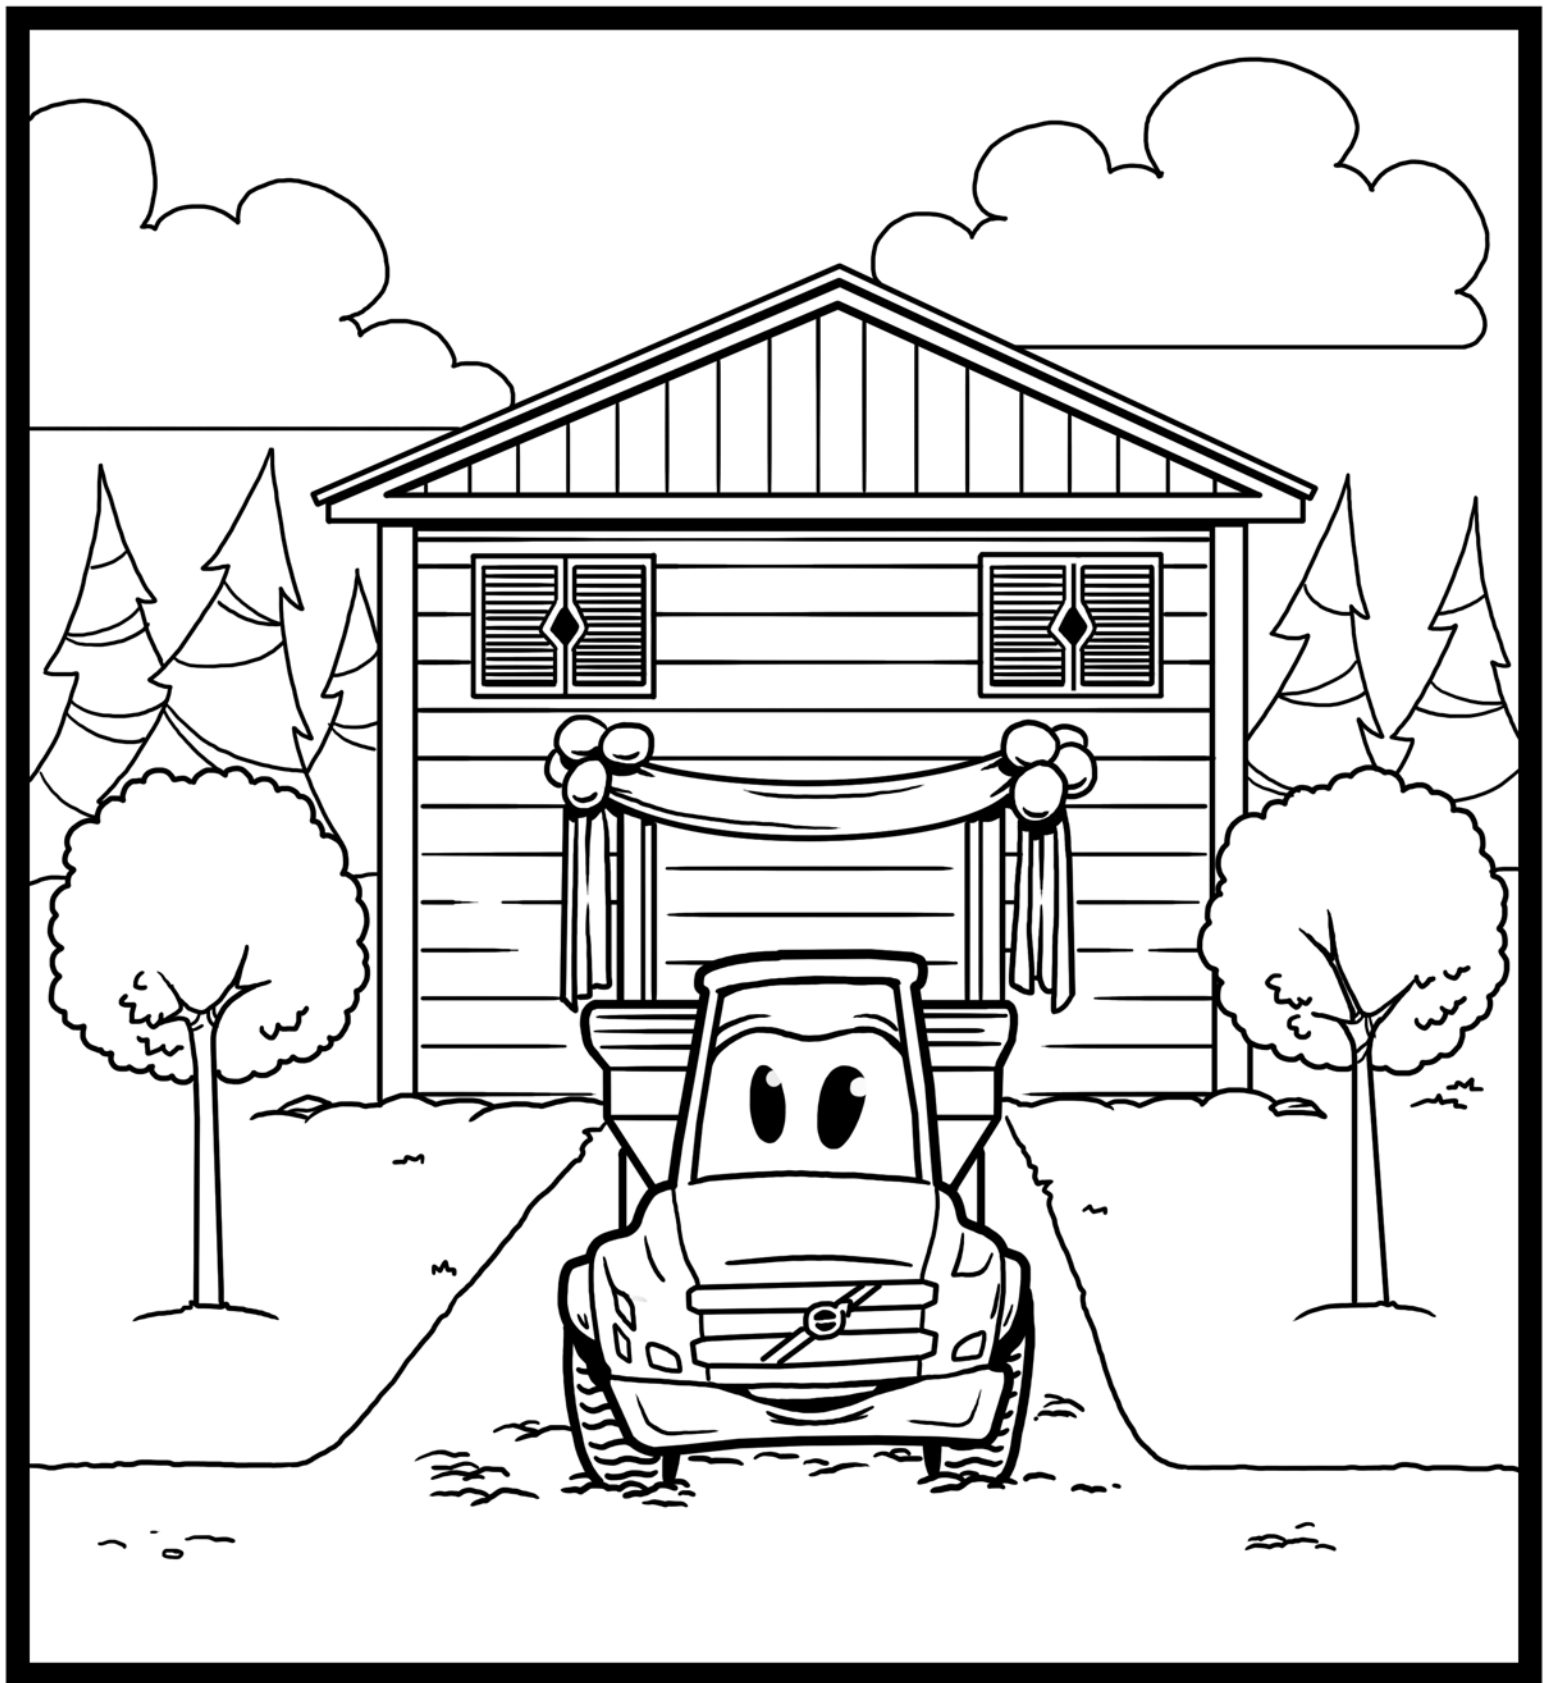

And now for my favorite part – present time!

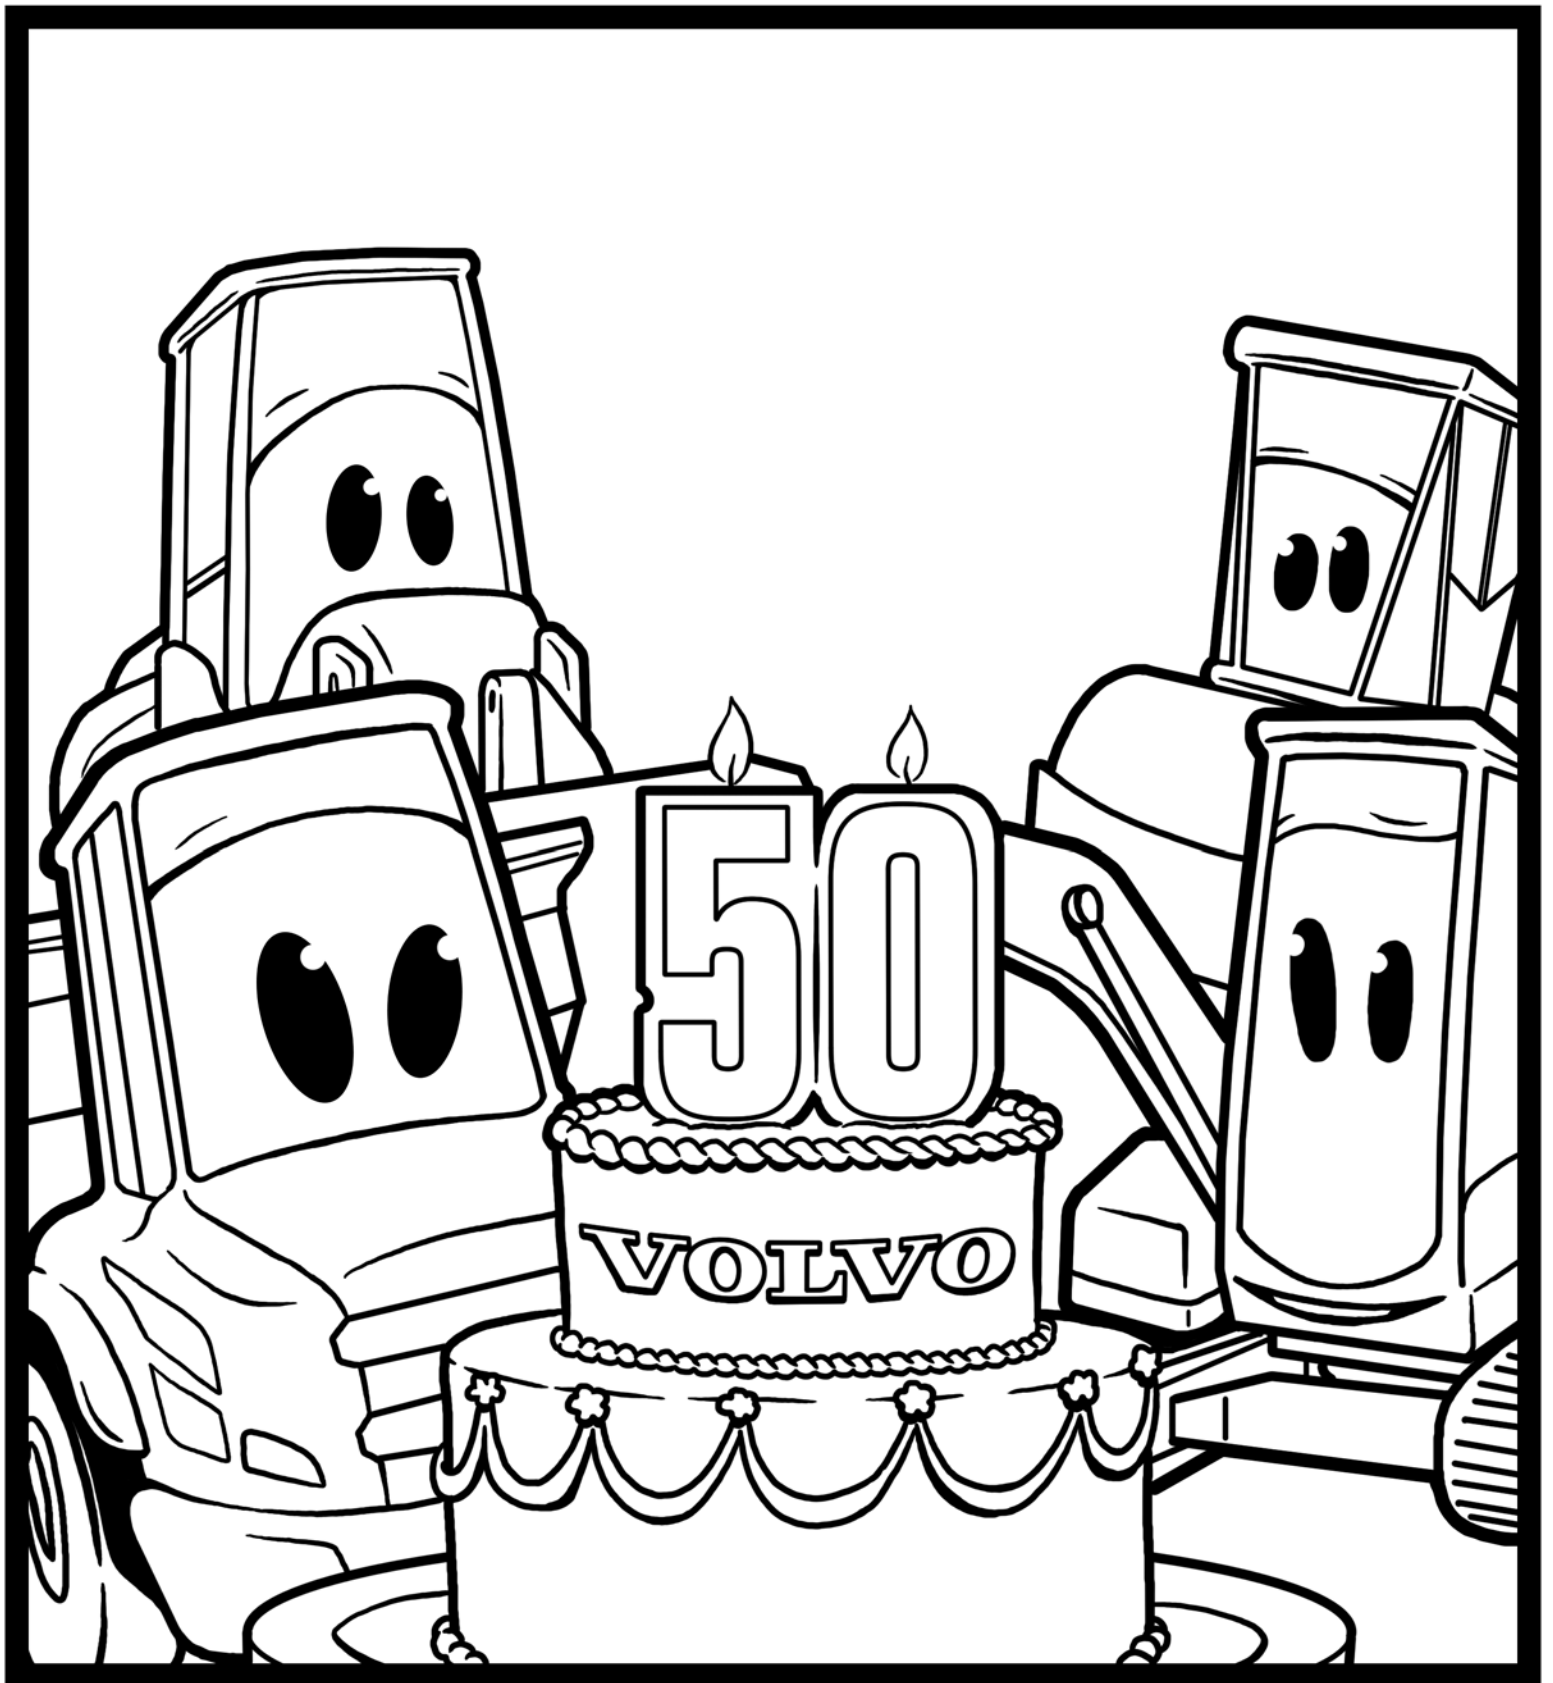

I can't believe it. You guys got me everything we need to build a fort! Let's get to work!

A job goes a lot faster when you have friends who can help.

Wow, guys. This is the coolest fort in Volvo Village. This has been the best birthday ever!

Henrik's birthday party!

This book is dedicated in memory of our dear friend and colleague, Henrik Larsson, who shared his knowledge and passion for our industry as a Volvo Construction Equipment articulated hauler expert.
